CAREER OBJECTIVE

Motivated Computer Engineering student with hands-on experience in full-stack web development and hackathon project delivery. Proficient in React, Node.js, JavaScript, and Python. Seeking a Frontend Developer internship with hands-on experience in building responsive web applications and participating in hackathon-based projects.

TECHNICAL SKILLS

Languages: C, C++, Java, Python

Web: HTML, CSS, JavaScript, Nodejs, React

Tools: Git, GitHub, Figma

Database: MongoDB

EDUCATION

Diploma in Computer Engineering — Vidyalankar Polytechnic

Expected May 2027

Semester III: 89% • MSBTE K-Scheme • *Relevant: Java Programming, Data Communication & Computer Networks*

PROJECTS

ERP Management System | *React, Node.js, Express.js, MongoDB, Electron*

- Led a team to secure 2nd Runner-Up at Industrial Hackathon (March 2026); built a role-based ERP platform with Admin, Manager, and Employee panels.
- Implemented employee registration, project/task assignment, attendance tracking, productivity monitoring, and dashboard analytics.
- Built a desktop-based System Tracker using Electron.js for real-time employee activity monitoring.

MindCare Website | *HTML, CSS, JavaScript*

- Developed a mental wellness platform for Smart India Hackathon (SIH 2025) targeting the Jammu & Kashmir region problem statement.
- Implemented multilingual support (English, Hindi, Kashmiri) and admin-side visitor management with login data collection.
- Designed a user-centric UI focused on accessibility and wellness for an underserved regional demographic.

Cafe Golden Hour Website | *HTML, CSS, JavaScript*

- Developed and deployed a responsive business website for a local cafe in Badlapur, establishing their digital presence.
- Integrated WhatsApp click-to-chat redirection and embedded location-based map for seamless customer interaction.
- Designed a mobile-responsive, brand-aligned UI prioritizing usability and visual appeal.

PPT Generator | *Python, Flask, HTML/CSS, python-pptx*

- Built and deployed a web-based PowerPoint automation tool for dynamic generation of academic project presentations.
- Implemented automatic placeholder replacement for project/student info, image upload with precise positioning, and dynamic font-size/word-limit handling.
- Generated downloadable .pptx files using python-pptx integrated with image processing libraries.

ACHIEVEMENTS & CERTIFICATIONS

- 2nd Runner-Up — Industrial Hackathon (March 2026): Led team to build a full-stack ERP system with Electron desktop tracker.
- Smart India Hackathon (SIH) Participant — Sept 2025
- Vibe Coding Hackathon — March 2026
- AI & Automation Workshop — March 2026
